

FRIENDS OF

## BACK ON OUR FEET

The Friends of Chiddingfold Surgery would like to extend their heartfelt thanks on behalf of all the Doctors and Staff for all the generous donations received for the Fire Appeal following the terrible fire in January at the

surgery.

We have been able to fund the immediate purchase of a spirometer, 2 ambulatory blood pressure monitors and a defibrillator which are already in use at the new temporary home for the surgery at Milford Hospital. Further purchases will be made shortly as the doctors prioritise which of the equipment previously provided by FCS should be replaced immediately before the insurance claim is settled.

We all know that there is an element of uncertainty regarding the settlement of insurance claims and we fully expect that the Surgery will not receive payment in full for the entire extent of its claim when it is finally made. FCS is using the funds from the Fire Appeal to plug this gap now. Should any funds remain after the insurance monies are received there will always be more equipment to be funded which will keep our surgery at the forefront of providing the first class service we have all become used to.
