

FRIENDS OF

## REBUILD UNDER WAY!

The Friends of the Surgery are delighted to confirm that the rebuilding of the new surgery has already started less than 3 months after the terrible fire. The doctors and staff at the practice have been working flat out not only to provide a service from the Milford Hospital which is not far off the offering from the Chiddingfold surgery but also to progress the rising from the ashes of the new surgery with a laudable turn of speed. We are indeed blessed as a community to have access to such a remarkable team.

FCS has assisted with the purchase of many items of equipment already in use at the temporary surgery. We have decided to retain the remainder of the funds from the Fire Appeal until the final insurance claim has been settled so that we can jump in with instantly available funds to plug any gaps not covered by the insurers. It has also been decided by the doctors not to replace certain items such as the QuikRead machine until they have moved in to the new surgery.

We are officially closing the Fire Appeal at the end of March 2019. We, and the entire surgery team, would like to pass on our whole hearted thanks to all the the people in Dunsfold, Chiddingfold, Hascombe, Hambledon and all the surrounding areas for your amazing generosity. With your help the temporary surgery at Milford Hospital offers a fantastic service and the new surgery will be every bit as progressive in the range of services on offer as the old one.
